Questions Concerning Field Trips

When?
The 2\textsuperscript{nd} and 3\textsuperscript{rd} lab sessions will consist of field trips. Check the syllabus for dates.

The 2\textsuperscript{nd} lab session field trip will be to the Desert Museum. For information on admission, directions etc. go to the following web site. http://www.desertmuseum.org

The 3\textsuperscript{rd} lab session field trip will be to the International Wildlife Museum. For information on admission, directions etc go to the following web site. http://www.thewildlifemuseum.org

Who pays?
The Desert Museum fee is larger than the fee you pay for class materials when you register. I will have Pima pay for the International Wildlife Museum, but the fee can’t cover the Desert Museum. Check the above web sites for fees. Because Pima will only pay the fees for one field trip it is not mandatory that you attend the Desert Museum Field Trip. Instead of the field trip you can earn the same 100 points by doing the Person/Organization paper. This is listed under the Assignment section of the web site. Click on assignments and go to the “Alternative to the DMFT”
The International Wildlife Museum is a \textbf{mandatory} field trip.

How do I get points?
Both field trips are worth 100 points. Field trip points are gained in two ways; 1) attendance on the designated date is worth 25 points and 2) completion of a worksheet is 75 points towards laboratory points. You will turn in this worksheet before you leave the field trip site.

What happens if I can’t go that day?
If you do not attend the field trip on the designated date you \textbf{can not receive} the 25 points for attendance. You may get the points for the lab worksheet but not for attendance. If you miss the field trip date and complete the worksheet separate from the group, you \textbf{must staple your admission ticket to the lab when you turn it in or you will not receive the points. You must offer proof that you were there}. You can mail it to the address on your syllabus or bring it to the International Wildlife Museum field trip. If you miss the dates for either field trip and do these on your own, the due date is the last day of the semester. If you send it in the mail it must be postmarked by that date.

How do I turn my work in at the field trip?
You will be turning work in and receiving work back at both field trips before you enter. I will send directions by email before each field trip.

Go to the Syllabus to check lab session dates.
